Any one of us would love to talk modern housing with you, any time.

We are also exploring opportunities with various Government Agencies on PPP Model. Various developing countries have also evinced interest in this regard and have enquired with the Company to carry out Low Cost/Affordable Residential Property projects. Zone Housing has established itself as one of the key players in the Real Estate Industry. Our basic purpose is to be responsible for providing “an enhanced lifestyle coupled with sustainable environment” wherever we work, which is ingrained in our DNA today and tomorrow. As a responsible corporate citizen, “Sustainability” is an integral part of our strategy. We aspire to be the market leader by offering iconic and world class property development. These are manifested in our mission “To delight our customer by providing quality life spaces through continuous innovation.”

We at Zone Housing have emphasized three pillars of importance to guide our business principles, namely: Business Ethics, Values, Core Capabilities, Corporate Sustainability: Being responsible towards our stakeholders. Zone Housing: “Building a Better Space”. Customer Centricity: Making our processes robust and customer centric during the life cycle of the product. Continuous Innovation: Challenging status quo, thinking new business models/ using new technology, application of meaningful thoughts. Sustainable “Green” development: To make all our products green and eco-friendly to the extent possible. People Engagement and Satisfaction: Making our company a great place to work by continuous communication and collaboration. Product Mix: suitable towards the need of the stakeholders.

Global Designers, Local Build!

Zone Housing believes that products and houses should be built by local communities. Instead of paying for carbon-emitting overseas construction and transport, why not put your money right back into your economy?
